STANDARD-DUTY 16.5" X 7" BRAKE DRUM

The Webb 56864B is a reliable, standard-duty 16.5" x 7" balanced brake drum, engineered to deliver consistent stopping power for drive and trailer axles rated up to 23,000 lb GAWR. Its patented CRT™ (Cool Running Technology) vents significantly improve airflow, helping the drum run about 10% cooler - which extends its lifespan and reduces maintenance costs. Designed, cast, and machined in the USA.
