

R134A RECOVER, RECYCLE, RECHARGE MACHINES

MANUAL / ECONOMY

Keep your service bays running smoothly with the Robinair 34288NI R-134a Recover, Recycle & Recharge Machine - a reliable, easy-to-use solution built for everyday automotive A/C service. It recovers, recycles, evacuates, and recharges R-134a mobile A/C systems quickly and accurately, exceeding SAE J-2788 standards by recovering more than 95% of the refrigerant and charging to within $\pm\frac{1}{2}$ oz of the programmed amount. It's the smart, straightforward choice for shops that want professional-grade A/C performance without the complexity.

Features include:

- » R-134a recover, recycle, evacuate & recharge
- » Exceeds SAE J-2788 standards
- » 95%+ refrigerant recovery rate
- » Charges to within $\pm\frac{1}{2}$ oz of programmed amount
- » Automatic oil drain with 12oz. graduated container
- » Automatic air purge
- » Refrigerant management system with filter life monitoring
- » Filter life alert at 1/3 remaining
- » Programmable vacuum - 15 to 99 minutes with countdown display
- » 4.3" full-color multilingual LCD display
- » Semi-automatic manual valves
- » Optional refrigerant & oil database
- » Printer compatible (optional)

AUTOMATIC / PREMIER

Take your A/C service to the next level with the Robinair 34788NI Premier R-134a Recover, Recycle & Recharge Machine. With an industry-leading 98.5% recovery efficiency, it recovers, recycles, evacuates, leak-tests, and recharges R-134a systems with a level of accuracy no competitor can match. The fully automatic function lets you program the machine to handle the entire service sequence - recover, vacuum, leak test, and charge - without ever touching a panel valve. It's a smarter, faster, more capable solution for high-volume shops that demand the best.

Features include:

- » R-134a recover, recycle, evacuate, leak-test & recharge
- » 98.5% recovery efficiency
- » Charges to within $\pm\frac{1}{2}$ oz of programmed amount
- » Fully automatic function
- » Automatic oil drain with graduated container
- » Automatic oil inject
- » Automatic air purge
- » Automatic refrigerant refill with low-supply alert
- » Vacuum leak test
- » Refrigerant management system with filter life monitoring
- » Filter life alert at 1/3 remaining
- » Programmable vacuum - 15 to 99 minutes with countdown display
- » Visual & audible alarm when service is complete
- » Larger graphical multilingual LCD display
- » High or low side charging
- » Optional refrigerant & oil database
- » Printer compatible (optional)
